

By solving the problems of service stations,
and by proposing systems and products that can strengthen
the mutual trust between staff and customers,
we support the service stations in their increasing of revenues from car care.

Customer management software for service stations (CTS21)

Eco Dyna Battery

Real Pro Series

Products & services

Car care products Sales promotion

We supply products with suggestions of effective sales methods at service stations. We also introduce tools & novelties useful for sales promotion.

Consulting services (CTS21)

We provide systems and consulting services that accord with the new trend of "self service" service stations, to establish a strong mutual trust between operators and customers.

Equipment Facilities

We propose designs and layouts of service stations that satisfy customers' needs, and also provide support for environmentally friendly and cost-effective operations of service stations.

We protect the environment without compromising industrial development.

We solve customers' problems by a variety of materials and products.

Our highest priority is offering what the customers need,
such as cost cutting and/or environmental protection.

Super Therm

Ashford Formula

Oil boom winder

Sterile equipment for medical use

COSMO RC Fuel
(fuel for engines of radio-controlled models)

Products & services

Construction materials

We offer new material products developed by the latest technologies, including "Super Therm" (import sales), the reflective & heat insulating paint and "Ashford Formula" (total import sales), a concrete hardener.

Hobby-related products

As a manufacturing business, we develop, produce and distribute fuels for radio-controlled models. We have a high share of the market in all the fields of radio-controlled models such as planes, helicopters, cars and boats. We constantly offer our customers the highest-level technologies in the world.

Our information site on radio-controlled models <http://www.cosmo-rc.com/>

Industrial equipment and materials

As energy saving, cost saving and environmental protection are essential requirements for today's industries, we supply oil analyzing/testing machines, oil boom winders, oil dispersant and materials for regular maintenance of oil refineries. We are also trying to reuse metals of used catalysts, thereby continuing our effort to protect the environment.

Petroleum and chemical products

We handle petrochemical products, industrial chemicals, additives and catalysts.

Medical products

As a manufacturer of aseptic equipment for medical use, we sell and introduce our products to major hospitals in all parts of Japan. We make suggestions for aseptic treatment rooms, and supply products that suit customers' purposes, including equipment against aerial infection and embalming products.

Our business in the Middle East

In the Middle East, we offer catering services for Japanese companies, mainly for oil developing companies, and supply hotels, restaurants and supermarkets with all Japanese foodstuffs.

From “Closer to You” to “With You”

We seek to satisfy as many customers as possible

by extinguishing your anxieties.

Insurance Business

In selecting and buying insurance and in emergencies, our customers can expect constant support and relief provided from their viewpoint. They can choose from almost all types of insurance, such as fire insurance, car insurance, accident insurance and other new types of insurance.

Advice on insurance

- Proposal of the most suitable insurance for each customer's requirements
- Assistance for customers from their viewpoint in reconsidering their current insurance (support for life planning)

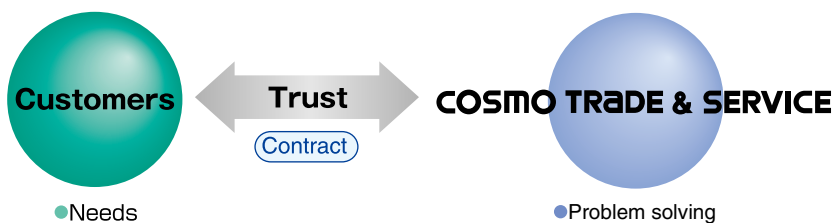

Counseling for insured accident

- Response to accidents through a reliable and advanced support system

Lease business

We provide a wide range of services related to leases for customers including service stations, including advising on leases, leasing equipment and proposing environmentally friendly systems of disposal.

■The leasing system of Cosmo Trade & Service
